E-Mail

Website:

Please describe briefly your farm/farming operations including number of acres farmed, products raised or grown, animals raised etc.

Is your farm Certified Organic and/or Biodynamic _____

If yes, who is the certifying agency _____

(If you are a Certified Organic Farmer please skip those questions that do not apply)

If not certified please describe current farming practices:

Are your seeds sourced non-GMO? _____

Are all of the products used on your farm either for production or processing approved from the OMRI materials list? _____

(OMRI is the Organic Materials Review Institute that produces a complete directory of products allowed for organic production and processing. OMRI is a national non-profit organization which determines which input products are allowed for use in organic production and processing. OMRI listed or approved products may be used in operations that are certified organic under the USDA National Organic Program. For more information and a complete listing of approved products please check out their web site at www.omri.org or for more information contact Oryana at 947-0191 and ask for Sandi or Joan. For your convenience there will be a copy of the OMRI Directory at our Customer Service Desk.

If you use inputs on your farm that are not OMRI approved please list them and the purpose for which they are used.

What methods do you employ to build up your soils?

How would you describe your environmental practices?

Animal Farmers:

Do you raise animals for meat ____ dairy ____ eggs ____
